Prepare your computer for version 10.1 of MyLO

Version 10.1 of MyLO is scheduled to replace the current version in late November, 2012. Version 10.1 will bring a range of improvements to the user experience of the new MyLO. To use version 10.1 it is recommended that you have access to one of the following browsers:

- Internet Explorer 9 (or higher);
- Google Chrome (latest);
- Mozilla Firefox (latest); or
- Safari 4 (or higher).

Meet the staff who are here to support you

Nell Rundle

Nell is a member of the MyLO Educational Development team. You might meet Nell during a MyLO workshop. Nell can also deliver training and support that is tailored to the needs of your team. She enjoys working with staff to solve teaching challenges.

Background

Nell has over 12 years of teaching experience. She has used MyLO to supplement face to face teaching and has a strong background in working with international students.

Learning and teaching interests

‘I am really interested in the use of technology to enhance learning opportunities for face to face students. Students often juggle their studies with work and family commitments, so the time they can spend on campus is minimal. I think that online learning has the potential to offer these students a more flexible means of connecting with the university and their peers.’

MyLO tool of the moment

‘I like the way that I can assign a due date to a content item or activity, which makes it appear in the Calendar that the students see on the unit Home page. Providing suggested completion dates this way can help students manage their time more effectively.’

Our team uses MyLO for specific purposes. Can you offer training and support to suit our needs and interests?

Different course, School and Faculty teams use MyLO in very different ways. The MyLO team recognises these differences and can tailor support and training to suit the needs of your team. Register your interest by sending an email to enquiries@calt.utas.edu.au and one of our Educational Developers will be in contact with you shortly.

Alternatively, consider attending one of our central workshops.

Got a question to ask about teaching with MyLO?

The Teaching Online in MyLO unit features a Questions and Answers discussion topic. You can ask questions and expect an answer within two business days, either from our Educational Developers or from fellow UTAS Staff.

To access the Teaching Online in MyLO unit, log in to new MyLO. On your MyLO My Home page, select Student role. You should be able to see the Teaching Online in MyLO unit listed in your My Units list.
