

Gradebook

The first two tabs are the only two you need to care about.

The screenshot displays the MyLO Gradebook interface. At the top, there is a navigation bar with a home icon, the MyLO logo, and the text 'Demo Unit Sandpit'. Below this is a secondary navigation bar with tabs for 'Unit Home', 'Content', 'Communication', 'Assessments', 'Grades', and 'Groups'. The 'Grades' tab is highlighted with a blue box and an arrow. Below the navigation bar, there are four tabs: 'Enter Grades', 'Manage Grades', 'Schemes', and 'Setup Wizard'. The 'Enter Grades' tab is selected and underlined. Below the tabs, there are three buttons: 'Import', 'Export', and 'More Actions'. A red 'Note' is displayed below the buttons, stating: '• 'Final Calculated Grade' sums to 55%, not 100%. Verify the total weight of all top level categories and items is 100%.' Below the note, there is a 'View By:' dropdown menu set to 'User' and an 'Apply' button. Below the dropdown is a search bar with the text 'Search For...' and a magnifying glass icon, followed by a link 'Show Search Options'. Below the search bar is an 'Email' button with an envelope icon. At the bottom of the screenshot, there is a table header with columns for 'Last Name', 'First Name', 'Org Defined ID', and 'Final Grades'. The 'Final Grades' column is highlighted. In the bottom right corner, there is a 'Student Engagement' dropdown menu.

Gradebook is on the
Toolbar.

Enter Grades shows
grades for students, it's
where you go to enter
them directly.

Manage Grades shows
grade items and allows
you to edit their
settings.

Other 2 tabs are for
advanced users.

Gradebook

Let's explore some terminology. This screenshot shows the 'Enter Grades' tab.

Student names are shown in the first column.

Then each 'grade item' in subsequent columns.

The name column repeats after x Grades, it can be changed in settings.

You'll need to scroll to the right to see all of the grades.

	Student Names Last Name ▲, First Name, Org Defined ID	Final Grades	Student Engagement			Category - One of Two

Gradebook

Terminology

Grade Items are represented by a column in the gradebook.

They contain a 'Grade' entry for each student.

Each student only ever sees their own grades.

	Last Name ▲, First Name, Org Defined ID	Final Grades		Student Engagement ▼			Category - One of Two ▼			
		Final Calculated Grade ▼	Student	Grade Item	Student	Grade Item	Subtotal	Category item 1 ▼	Category item 2 ▼	Subtotal

Grade items can be of many types but the most common by far is the "Numeric" grade item. Essentially it is just a number.

Gradebook

Terminology

Categories are “Groups” of grade items.

They calculate a “subtotal” automatically.

You can hide/show categories while still showing the grade items inside.

Categories are useful but *Optional*.

	Last Name ▲, First Name, Org Defined ID	Final Grades			Category - One of Two ▼			
		Final Calculated Grade ▼	Grade Item	Grade Item	Subtotal	Category item 1 ▼	Category item 2 ▼	Subtotal
<input type="checkbox"/>	Student, Dummy1 (Id: DDDDD1)	35.06 / 55	-	- / 1, - / -, -	- / 0, -%	7.4 / 10, 14.8 / 20, DN	5 / 10, 0 / 0, PP ⓘ	14.8 / 20, DN
<input type="checkbox"/>	Student, Dummy2 (Id: DDDDD2)	20.26 / 35	Grade	Grade	- / -, -	9 / 10, 0 / 0, HD ⓘ	- / 10, - / -, -	- / 20, -
<input type="checkbox"/>	Student, Dummy3 (Id: DDDDD3)	0.26 / 15	Grade	Grade	- / -, -	8 / 10, 0 / 0, HD ⓘ	- / 10, - / -, -	- / 20, -
<input type="checkbox"/>	Student, Dummy4 (Id: DDDDD4)	0.26 / 15	Grade	Grade	- / -, -	6 / 10, 0 / 0, CR ⓘ	- / 10, - / -, -	- / 20, -
<input type="checkbox"/>	Student, Dummy5 (Id: DDDDD5)	32.56 / 55	-	- / 1, - / -, -	- / 0, -%	6.15 / 10, 12.3 / 20, CR	4 / 10, 0 / 0, NN ⓘ	12.3 / 20, CR
<input type="checkbox"/>	Student, Testing (Id: 1234567)	20.26 / 35	-	- / 1, - / -, -	- / 0, -%	- / 10, - / -, -	6 / 10, 0 / 0, CR ⓘ	- / 20, -
<input type="checkbox"/>	Student, View (Id: u61589)	15.26 / 35	Accessed Content ⓘ	- / 1, - / -, -	0 / 0, 100%	- / 10, - / -, -	- / 10, - / -, -	- / 20, -
<input type="checkbox"/>	Testing2, Student (Id: 567890878)	34.26 / 55	-	- / 1, - / -, -	- / 0, -%	5 / 10, 0 / 0, PP ⓘ	7 / 10, 14 / 20, DN	14 / 20, DN

Gradebook

Points vs Weights!

The default gradebook setup is to use 'weighted grades'. Each grade has a "points" value and a weighting. The points value is the mark you enter for each student.

The weighted value is a calculated value based on a percentage of the overall marks for the unit.

For example:

You have a rubric that calculates a mark out of 100. You use this to grade your assignment generating a grade out of 100. The assignment is worth 20% of the mark, so your grade item will be set up out of 100, with a weighting of 20%.

In the Gradebook – you will see the points grade first, then the weighted grade as calculated by the system.

50/100, 10/20

The Basic Points – what did you mark them out of?

Often set to 100 if using a 'Rubric'.

Weighted Grade – what's it worth overall?

Will calculate automatically for each grade.

Weight can be changed after grading, it will recalculate.

Gradebook

Grade Scheme and Grade Colour

Grade items may also show the 'Grade Scheme' in the Gradebook, and the Grade Colour. These options can be turned on or off for both you and/or students.

Grade Scheme is a symbol (usually text) representing a 'range' of grades or a set grade value. For example you could have a scheme set up where each possible value for a grade is represented by a different word.

The **Default** Grade Scheme is the standard UTAS grades. (HD, DN CR etc) which represent a range of values for each 'symbol' (ie, any grade between 100% and 79% will show as 'HD').

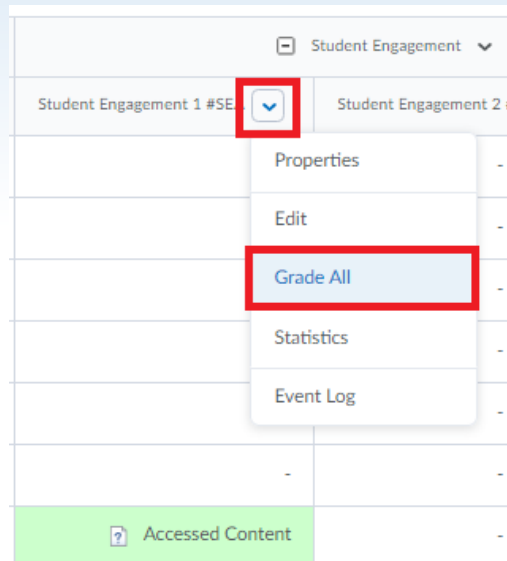

The grade 'Colour' works like the Grade Scheme – but will be displayed as the colour of the 'cell' in the gradebook. The default shows as green for any grade above a 'fail' and red for any grade below 'fail'.

The diagram shows a green background with the text "50/100, 10/20, PP" in large black font. Below this, three boxes are labeled: "Points" (under 50/100), "Weighted Grade." (under 10/20), and "Grade Scheme 'Symbol'." (under PP). A separate box on the right says "Grade Colour is the background".

Entering Grades

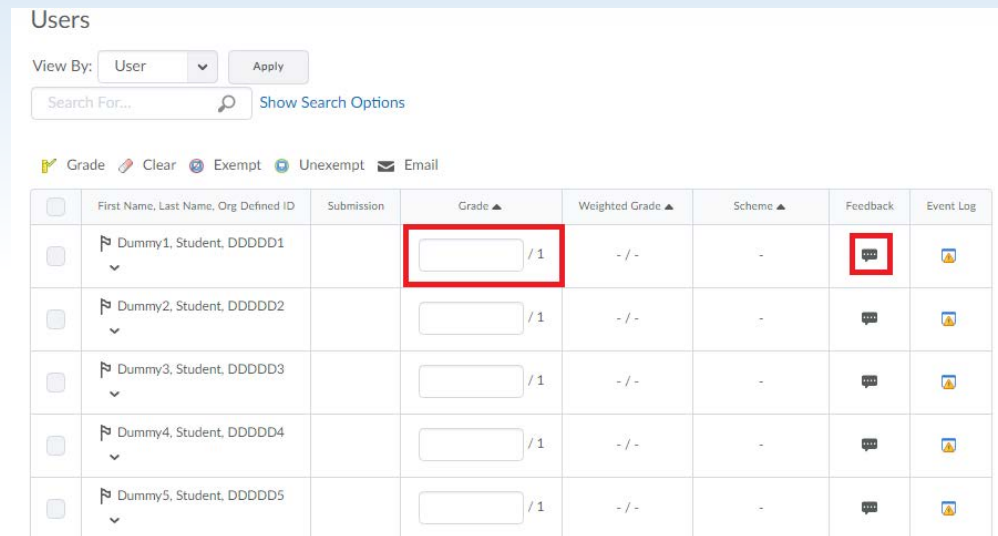

You can enter a grade directly into the Gradebook

Go to 'Enter Grades' and click the [v] icon for the grade you want to enter. From the menu choose "Grade All".

Alternatively – in 'Enter Grades' click 'Switch to Spreadsheet view' to make all grades 'editable', type into any field to alter/add a grade.

The grade will be shown with the list of students with a place to type the grade, and any feedback (optional).

Users

View By: User Apply

Search For... Show Search Options

Grade Clear Exempt Unexempt Email

	First Name, Last Name, Org Defined ID	Submission	Grade ▲	Weighted Grade ▲	Scheme ▲	Feedback	Event Log
<input type="checkbox"/>	Dummy1, Student, DDDDD1 v		<input type="text"/> / 1	- / -	-	<input type="text"/>	
<input type="checkbox"/>	Dummy2, Student, DDDDD2 v		<input type="text"/> / 1	- / -	-	<input type="text"/>	
<input type="checkbox"/>	Dummy3, Student, DDDDD3 v		<input type="text"/> / 1	- / -	-	<input type="text"/>	
<input type="checkbox"/>	Dummy4, Student, DDDDD4 v		<input type="text"/> / 1	- / -	-	<input type="text"/>	
<input type="checkbox"/>	Dummy5, Student, DDDDD5 v		<input type="text"/> / 1	- / -	-	<input type="text"/>	

Whichever way you enter grades – Remember to **SAVE!** Save each page before going to the next page. Save before leaving the tool or switching back to 'Standard View'.

Once saved the result is visible to students – unless you hide the grade item first, or set a date at which it will become visible. See help links at the end of this document for more info.

Entering Grades

“Activities” can enter a grade to the gradebook.

An individual Quiz can be linked to a Grade Item.

The Quiz can send the student’s score to that grade item automatically, if set up to do so.

You can also set up the quiz so the grade is not automatically sent if you are marking questions manually, but then send in bulk from the quiz tool once marked.

Entering Grades

“Activities” can enter a grade to the gradebook.

A Discussion Topic can be linked to a Grade Item.

The topic can be graded from within the discussion tool.

It will send the grade to the gradebook when the “Publish to Grades” option is checked.

Entering Grades

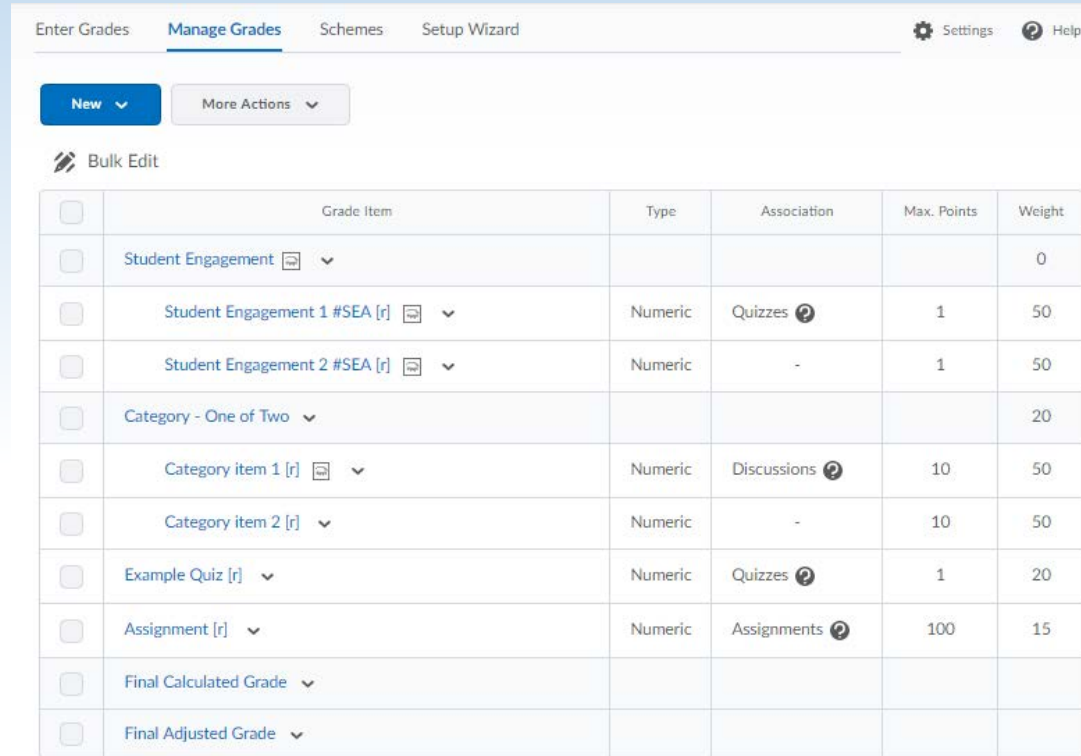

Rubrics are a way of calculating a grade.

Rubrics are a tool that calculate a score. They can be associated with almost any activity – when you associate a rubric with an activity the activity itself is what controls when the grade is sent. (eg when an assignment is graded using a rubric, the submission still has to be set to ‘published’ for the grade to be sent to the gradebook).

Manage Grades

Lists your grades – you can access settings!

The screenshot shows the 'Manage Grades' interface. At the top, there are navigation tabs: 'Enter Grades', 'Manage Grades' (selected), 'Schemes', and 'Setup Wizard'. On the right, there are links for 'Settings' and 'Help'. Below the tabs, there are two buttons: 'New' (with a dropdown arrow) and 'More Actions' (with a dropdown arrow). Below these buttons is a 'Bulk Edit' option with a pencil icon. The main part of the interface is a table with the following columns: 'Grade Item', 'Type', 'Association', 'Max. Points', and 'Weight'. Each row in the table has a checkbox in the first column.

<input type="checkbox"/>	Grade Item	Type	Association	Max. Points	Weight
<input type="checkbox"/>	Student Engagement [i] v				0
<input type="checkbox"/>	Student Engagement 1 #SEA [r] [i] v	Numeric	Quizzes ?	1	50
<input type="checkbox"/>	Student Engagement 2 #SEA [r] [i] v	Numeric	-	1	50
<input type="checkbox"/>	Category - One of Two v				20
<input type="checkbox"/>	Category item 1 [r] [i] v	Numeric	Discussions ?	10	50
<input type="checkbox"/>	Category item 2 [r] v	Numeric	-	10	50
<input type="checkbox"/>	Example Quiz [r] v	Numeric	Quizzes ?	1	20
<input type="checkbox"/>	Assignment [r] v	Numeric	Assignments ?	100	15
<input type="checkbox"/>	Final Calculated Grade v				
<input type="checkbox"/>	Final Adjusted Grade v				

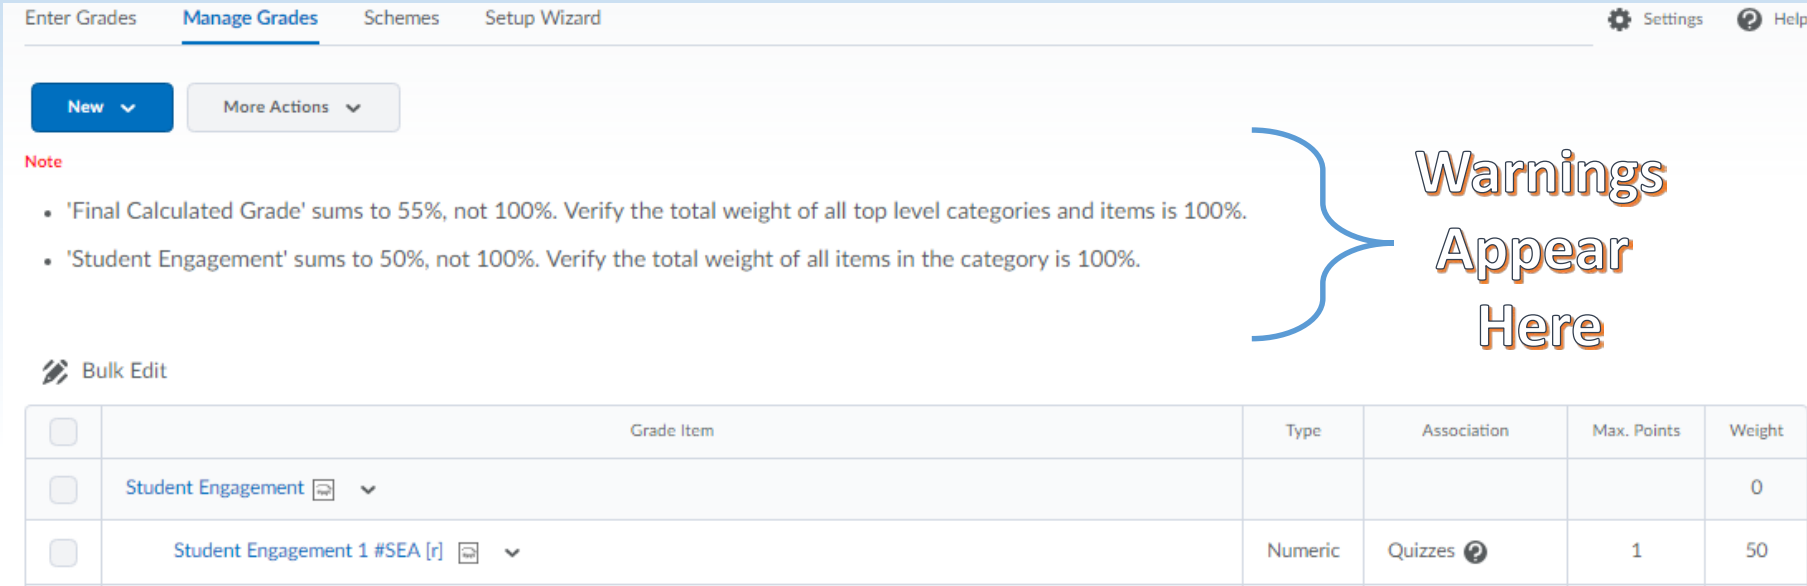

The Manage Grades area allows you to see at a glance all of the grade items.

Click on any grade item or category to see and/or change its settings.

Click 'New' then choose 'item' for a new grade, or 'category' for a new category.

Manage Grades

Wait what's this message saying?!

The screenshot shows the 'Manage Grades' interface in D2L. At the top, there are navigation tabs: 'Enter Grades', 'Manage Grades' (selected), 'Schemes', and 'Setup Wizard'. On the right, there are links for 'Settings' and 'Help'. Below the navigation, there are two buttons: 'New' and 'More Actions'. A red 'Note' section contains two bullet points:

- 'Final Calculated Grade' sums to 55%, not 100%. Verify the total weight of all top level categories and items is 100%.
- 'Student Engagement' sums to 50%, not 100%. Verify the total weight of all items in the category is 100%.

A blue bracket on the right side of the note points to the text 'Warnings Appear Here'. Below the note is a 'Bulk Edit' button. At the bottom, there is a table with the following data:

<input type="checkbox"/>	Grade Item	Type	Association	Max. Points	Weight
<input type="checkbox"/>	Student Engagement [i] v				0
<input type="checkbox"/>	Student Engagement 1 #SEA [r] [i] v	Numeric	Quizzes ?	1	50

The gradebook tool was set up in D2L for a simple class without any complicated grade set up.

UTAS units sometime have complicated grade setups by necessity.

D2L sometimes has itself a wee whine about how you're doing things if you have a complex setup because it doesn't understand. Sometimes the message warns you when there's a legitimate error. Sometimes you can just ignore it. If you're worried – ask your Ed-Tech what the message means and if it's a problem.

Grades

The Best Bet, however, is Keep It Simple!

All said and done when designing your grade setup your best bet for ease of use is to keep it as simple and obvious as possible.

Give your grades descriptive names.

Simplify the setup such that students only see the data relevant to them.

If you're confused – they're probably double confused!

Make sure you keep an eye on your grade book over the semester to pick up on key issues (ie, grades missing, weights not correct etc).

Ensure the grades are ACCURATE before they are sent to the exams office. Any inaccuracies due to weighting systems issues or missing grades are entirely your responsibility to spot and fix. Double check calculations if they don't look right you may need to contact ed-techs in your school/faculty/college/society/hub/cult or whatever we're calling organisational structures at the time you read this. "They're called blancmanges now".

How to: [Hide a grade item from students, or you can give a grade item a date at which it will be visible.](#)

How to: [Make a grade item only visible to a certain cohort/group of students.](#)

How to: [Choose what 'elements' of a grade are visible to students.](#)

How to: [Organise the Gradebook to show only certain 'Groups' of students if necessary, including the 'Grade All' screen.](#)

You can import grades into the gradebook IF you have a CSV file that is set up in a specific way. This is somewhat more advanced, so it is not recommended unless you have a specific reason.
